Tuesday January 20th:  
Faculty Lunch Seminar: Mike Wasielewski  
Tech K140  
12:00 – 1:00pm

Friday January 23rd:  
Chemistry Colloquium: Timothy Swager  
Tech LR3  
4:00 – 5:00pm

For full schedule, including Center events, please see the Department Calendar:  
http://www.chemistry.northwestern.edu/events/calendar.html

BIP

Meets every Friday at 2:45pm in Tech K140

Middle School Science Fair Judges Needed for Regional Science Fair at Truman College

Friday January 23, 2015 from 8:00 am to 11:00 am. Needed for about 1 hour. Transportation can be provided.

Need people who can objectively look at student’s science fair experiments and help judge their work, give advice, and help. This is the perfect opportunity for beginning science majors and science enthusiasts to brush up on the scientific method and the process of experimentation design. If anyone is interested please go to the link below and sign up and if they can email me at mschon@cps.edu if they need a ride. Thank you.

How to Secure Initial Financing for Your Startup presented by INVO – Innovation and New Ventures Office

SBIR/STTR GRANTS ARE THE ONLY SUBSTANTIVE SOURCE OF NON-DILUTIVE FUNDING

PLEASE JOIN US FOR THIS INFORMATIONAL SESSION, IF YOUR RESEARCH FINDINGS HAVE COMMERCIAL POTENTIAL AND YOU’RE THINKING ABOUT STARTING A COMPANY BASED ON YOUR RESEARCH.
Tuesday, February 3rd  
Noon-1:30 PM  
Ford ITW Room  
(2nd floor)

Wednesday, February 4th  
Noon-1:30pm  
Lurie Research Center  
Gray Seminar Room

Topics Covered in this Informational and Q&A Session:
Small Business Innovation Research (SBIR) & Small Business Technology Transfer (STTR) Grants

- What these grants are
- Which agencies provide them & How to find SBIR/STTR topics
- Eligibility requirements
- Benefits from a business model perspective
- Best practices and tips from successful recipients
- Where to receive support before or during grant preparation

Presenters Include:
- Jeff Coney, Director of Economic Development, Innovation and New Ventures Office
- Barbara Goodman, Senior Vice President, PROPEL, iBIO Institute
- Anna Lisa Somera, Director of Quality Regulatory Affairs and Operations, Diagnostic Photonics, Consultant to Briteseed and Innoblative Design
- Samir Mayekar, Co-Founder and CEO, SiNode Systems (Evanston Location)
- Rebecca McNaughton, Project Manager, Infinitesimal (Chicago Location)

Opportunities

Tufts University Department of Chemistry is seeking a full-time lecturer to assume a central, long-term role in our undergraduate teaching program. The ideal candidate is someone who enjoys working closely with talented students and who possesses the ability to explain concepts in chemistry to students with broad educational backgrounds. In addition to General Chemistry, the candidate will also be required to fill teaching needs in Biochemistry, Biophysical Chemistry, and Bioanalytical Chemistry.

Individuals must possess a Ph.D. in Chemistry. Teaching experience is strongly preferred. Commitment to excellence in undergraduate teaching is required. The successful candidate will demonstrate experience or interest in pedagogical innovations to enhance the retention of students in introductory level courses. The position will start on September 1, 2015. Applicants should address their applications to Lecturer Faculty Search Committee, Department of Chemistry, Tufts University, Medford, MA 02155; and submit their CV, statement of teaching philosophy, and three confidential letters of recommendation through Interfolio at http://apply.interfolio.com/26897. Evaluation of candidates will begin January 12, 2015, and continue until the position is filled.

For more information on the department, please visit our website at http://chem.tufts.edu. Tufts University is an Affirmative Action/Equal Opportunity employer. We are committed to increasing the diversity of our faculty. Women and members of underrepresented groups are strongly encouraged to apply.
Merck Summer Internships in Chemistry - We are pleased to announce the 2015 Merck Chemistry Summer Internship Program. This year's program provides internships in Analytical, Discovery, Process, and Structural Chemistry, and are available at the Boston (MA), Kenilworth (NJ), Rahway (NJ) and West Point (PA) research sites.

Merck Chemistry interns will each be paired with an experienced mentor, and will work side-by-side with the mentor on a cutting edge drug discovery program. During the course of the summer, interns will learn about drug discovery, make contributions to important programs, and generate results that may be included in future publications. They will also make many valuable contacts in the industry.

Internships typically start in early June, and run 9 – 11 weeks. Summer interns are paid a competitive stipend, and are also provided with a variety of additional benefits.

Students may apply at Merck’s external career website. In the search box, they should enter the following codes to find postings for specific areas. The job postings provide additional information on required qualifications, and on the details of the internships.

Analytical Chemistry – ADM006473
Discovery / Process Chemistry – ADM006480
Structural Chemistry – ADM006491

The application deadline is February 15th, 2015.

The Department of Chemistry at the University of Texas at El Paso (UTEP) invites applications for a tenure-track faculty position in Physical Chemistry (broadly defined including Physical Inorganic, Physical Organic, and Physical Biochemistry) at the Assistant Professor level with an anticipated appointment date for Fall 2015. The successful candidate is expected to develop a vigorous, energetic and externally funded research program, to be committed to teaching at undergraduate and graduate (master and doctorate) levels, to mentor students, and to serve the department, college, university, discipline, and community. The Department of Chemistry has top of the line facilities including NMR spectroscopy, mass spectrometry, EPR, x-ray crystallography (small molecule and protein), and cryo-electron microscopy located in the brand new state-of-the-art Chemistry and Computer Science Building. Candidates' research should have a strong potential for extramural funding and for the establishment of collaborations with other laboratories. Preference will be given to candidates whose research employs innovative approaches in areas including energy, environmental, and biosciences. Documents needed include letter of interest, curriculum vitae, research proposals, teaching statements, and a list of contact information for three references.

ABOUT UTEP AND EL PASO: Located on the culturally vibrant U.S.-Mexico border, The University of Texas at El Paso is an emerging national research university with more than 23,000 students. The University’s rapidly growing research portfolio in the sciences, engineering, health fields, and other areas brings in more than $83 million per year, ranking UTEP fourth in federal research expenditures among the public universities in Texas. El Paso is a highly livable, bicultural community of 800,000 people, which offers affordable homes and attractive neighborhoods. El Paso is also repeatedly ranked as the safest large city in the United States.

REQUIRED QUALIFICATIONS: Applicants must have a Ph.D. or equivalent degree, postdoctoral research experience, and a strong record of research accomplishments.
APPLICATION PROCEDURES: Review of applications will begin immediately and will continue until the position is filled. Candidates should send a letter of interest, curriculum vitae, statement of research interest, a brief description of teaching philosophy, and complete contact information for at least three references to the following address:

Physical Chemistry Search Committee Chair  
Department of Chemistry  
University of Texas at El Paso  
500 West University Avenue  
El Paso, TX 79968  
mnarayan@utep.edu

The National Research Council of the National Academies sponsors a number of awards for graduate, postdoctoral and senior researchers at participating federal laboratories and affiliated institutions. These awards include generous stipends ranging from $42,000 - $80,000 per year for recent Ph.D. recipients, and higher for additional experience. Graduate entry level stipends begin at $30,000. These awards provide the opportunity for recipients to do independent research in some of the best-equipped and staffed laboratories in the U.S. Research opportunities are open to U.S. citizens, permanent residents, and for some of the laboratories, foreign nationals.

Detailed program information, including online applications, instructions on how to apply and a list of participating laboratories, is available on the NRC Research Associateship Programs Website (see link above).

Questions should be directed to the NRC at 202-334-2760 (phone) or rap@nas.edu. There are four annual review cycles.

Review Cycle: February; Opens December 1; Closes February 1  
Review Cycle: May; Opens March 1; Closes May 1  
Review Cycle: August; Opens June 1; Closes August 1  
Review Cycle: November; Opens September 1; Closes November 1

Applicants should contact prospective Adviser(s) at the lab(s) prior to the application deadline to discuss their research interests and funding opportunities. More detailed information and an online application can be found at www.nationalacademies.org/rap.
