For full schedule, including Center events, please see the Department Calendar:
http://www.chemistry.northwestern.edu/events/calendar.html

Tuesday October 15th:
Faculty Lunch Seminar: Mercouri Kanatzidis
Tech K140
12:00-1:00pm

Wednesday October 16th:
L. Carroll King Memorial Lectures Presented By:
Clark Landis, University of Wisconsin - Madison
Tech LR3
3:00-4:00pm

Thursday October 17th:
L. Carroll King Memorial Lectures Presented By:
Clark Landis, University of Wisconsin - Madison
Tech L211
4:00-5:00pm

Friday October 18th:
Fred Basolo Medal
2019 Recipient: Kim Dunbar, Texas A&M University
Tech LR3
4:30-5:30pm

Arrivals

We did not have any new arrivals

BIP

Friday October 18th BIP will be in Tech K140 at 1:00pm. 2019 Basolo Medal Winner Kim Dunbar will be joining BIP this week.

Announcements

Congratulations to Yishu Jiang for being selected to be the recipient of the 2019 Gerrhard Closs Graduate Student Award by the Inter-America Photochemical Society. This award recognizes the excellent work done as a graduate student with Professor Emily Weiss.

Opportunities

The Department of Chemistry at St. Bonaventure University invites applications for a tenure-track position in Analytical Chemistry, beginning August 2020, at the rank of Assistant Professor. A Ph.D. in Chemistry is required, along with a commitment to excellence in undergraduate teaching, research, and University service. Teaching will include the Analytical and General Chemistry sequences and possibly other courses matching the candidate’s expertise; average twelve contact hrs/semester. Preference will be
given to candidates with postdoctoral experience, including demonstrated teaching success at the college level. Appreciation and respect for the University’s Mission as a Catholic University in the Franciscan tradition are expected.

Apply by email (titled “Chemistry Search”) to Sharon Godfrey, A&S Admin. Asst., sgodfrey@sbu.edu; submit cover letter, CV with contact info for 3 or 4 references, statements of teaching philosophy and research plans, and unofficial undergrad/grad transcripts.

Materials should be received by Oct. 7 for full consideration; review will continue until the position is filled. For questions, please contact Dr. Donna Brestensky, Chemistry Chair (dbresten@sbu.edu)

For information about the University and department, visit http://www.sbu.edu/chemistry

The Stanford Science Fellows program is focused on incubating new directions in foundational scientific research through an interdisciplinary community of exceptional postdoctoral scholars from around the world who are driven by a sense of wonder about the natural world. The goals of this new postdoctoral training program are:

- To deepen our understanding of the natural world by advancing and bridging disciplines in the physical, mathematical, and life sciences.
- To provide opportunities for exceptionally qualified early-career scientists to develop academic leadership skills focused on fostering scientific discovery, acquire interdisciplinary approaches to foundational scientific research, and broaden science communication skills.
- To recognize and support scholars who bring a diversity of perspectives, identities, and backgrounds, including those from groups who are underrepresented in the sciences.
- To build community at Stanford around frontier research challenges.
- To provide flexibility and resources for bold, independent thinkers to pursue their own scientific research visions.

Stanford Science Fellowships are intended for exceptional early-career postdoctoral scholars who have recently been awarded their PhD or will be awarded their PhD by the start of the fellowship and who want to pursue research and training in any natural science discipline. International scholars are welcome to apply.

Between 4 to 8 fellows will be selected to start appointments between July 1 and September 1, 2020. Prospective fellows will be considered by a committee of Stanford faculty from departments and schools across the natural sciences at Stanford. An explicit goal of these selection committees, in addition to selecting candidates with tremendous intellectual strength, will be the enhancement of demographic and intellectual diversity in the scientific community at Stanford.

Learn more about the Stanford Science Fellows and the application at stanfordsciencefellows.stanford.edu. Stanford Science Fellow appointments will be for three-year terms. Fellows will receive an annual stipend of $83,000 per year, benefits, and up to $8,000 per year supplemental funds to support research and professional development.

Interested applicants must apply online (stanfordsciencefellows.stanford.edu) by November 1, 2019. Inquiries may be directed to stanfordsciencefellows@stanford.edu.

Université de Montréal has more than 10,000 employees and is one of Canada's Top 100 Employers. UdeM has Canada's 2nd largest student body and ranks among the top five Canadian research universities, receiving more than half a billion dollars in research funding every year.
The Department of Chemistry is seeking applications for a full-time tenure-track position at the rank of Assistant Professor who specializes in the area of material science.

Through the achievements of the members of its community, UdeM participates in building today’s and tomorrow’s world.

Responsibilities
The appointed candidate will be expected to develop an outstanding research program in the context of global competitiveness, teach at all three levels of the curriculum, supervise graduate students, engage in ongoing research and publication, and contribute to the academic life and reputation of the University.

Requirements
- Ph.D. in chemistry and post-doctoral training
- Strong research expertise in the area of material science
- University level teaching ability and excellent communication skills
- Ability to develop an active and original high level research program
- Excellent publication track record
- An adequate knowledge of the French written and spoken language or a strong commitment to mastering the proficiency level required, in accordance to Université de Montréal’s Language Policy. An institutional learning support program is offered to all professors wishing to learn French or improve their communication skills.

How to submit your application
The application must include the following documents:
- a cover letter
- application must include in the cover letter one of the following statements: “I am a citizen / permanent resident of Canada.” or “I am not a citizen or permanent resident of Canada.”
- a curriculum vitae
- a research proposal
- a letter describing the teaching philosophy (max. 1 page)
- copies of recent publications and research

Three letters of recommendation are also to be sent directly to the department chair by the referees.

Application and letters of recommendation must be sent by email to Professor André Charette, chair of the Department of Chemistry:
Professeur André B. Charette
Faculté des arts et des sciences, Département de Chimie, UdeM
Téléphone : (514) 343-6730
Courriel : andre.charette@umontreal.ca
Site Web : www.chimie.umontreal.ca

The Department of Chemistry and Biochemistry at The University of Toledo invites applications for a tenure-track faculty position in inorganic chemistry. Applicants in all areas of inorganic chemistry are encouraged to apply, especially those with expertise in materials chemistry, nanomaterials, thin-film preparation, heterogeneous catalysis, and energy storage applications. A Ph.D. degree in chemistry or a closely related field and a commitment to work with a diverse student population is required; postdoctoral experience is preferred. The successful candidate will begin their appointment August 2020, will be expected to teach in the undergraduate and graduate (M.S. and Ph.D.) programs, and establish and
maintain an externally funded research program. Opportunities for intra-university collaborations are possible through the College of Engineering, the School of Green Chemistry and Engineering, and the Wright Center for Photovoltaics Innovation and Commercialization.

The University of Toledo is a comprehensive state institution of 20,000 students with a strong research mission. Located on an attractive suburban campus near the Maumee River and Lake Erie, The University of Toledo is less than 40 miles from Ann Arbor, 60 miles from Detroit, 90 miles from Cleveland, and has access to an extensive system of Metroparks and recreation areas. The University offers competitive salaries, excellent start-up and benefits packages, and is dedicated to faculty and student success. Further information is available at [http://www.utoledo.edu/nsm/chemistry/](http://www.utoledo.edu/nsm/chemistry/). Applicants must submit to [https://jobs.utoledo.edu](https://jobs.utoledo.edu) a cover letter, current curriculum vitae, a summary of research plans, and a statement of teaching philosophy as a single pdf file. Three letters of recommendation should be emailed to utchem@utoledo.edu. Review of applicants will begin on October 15, 2019 and continue until the position is filled.

The University of Toledo is an equal opportunity, affirmative action employer. The University is dedicated to the goal of building a culturally diverse and pluralistic faculty and staff committed to teaching and working in a multicultural environment and strongly encourages applications from women, minorities, individuals with disabilities, dual-career professionals and covered veterans.

The University of Toledo does not discriminate in employment, educational programs, or activities on the basis of race, color, religion, sex, age, ancestry, national origin, sexual orientation, gender identity and expression, military or veteran status, disability, familial status, or political affiliation. The University of Toledo provides reasonable accommodation to individuals with disabilities.

**The Department of Chemistry at Columbia University** invites applications for a tenure track Assistant Professor position with a start date of July 1, 2020. All areas of Chemistry will be considered and candidates from all sub-disciplines are encouraged to apply. Successful candidates for this position must have the potential to do innovative and pioneering research and to teach effectively at the undergraduate and graduate levels. Application details may be found on our website at the following link: [http://pa334.peopleadmin.com/postings/3965](http://pa334.peopleadmin.com/postings/3965).

**The Department of Chemistry at North Carolina State University** seeks to fill tenure track faculty positions in the following areas: Analytical Chemistry, especially separation science and chemometrics; Computational/Theoretical Chemistry; and/or Organic Chemistry/Chemical Biology. In all areas, we seek candidates interested in developing innovative interdisciplinary programs targeting complex chemical and biological systems. Preference will be given to candidates whose research interests complement existing programs and initiatives in the Department, College of Sciences, and University. Our priority is to fill positions at the Assistant Professor rank, although exceptional candidates at other ranks will be considered. Successful candidates are expected to establish a nationally and internationally recognized research program and to demonstrate strong interests and abilities in teaching and mentoring at both the undergraduate and graduate levels. Candidates must possess a PhD and post-doctoral experience in Chemistry or a related scientific field. Candidates should apply at [http://jobs.ncsu.edu](http://jobs.ncsu.edu) under position number 00001224 and submit electronic copies of their curriculum vitae, research proposals, and a cover letter. Candidates should also arrange for three letters of recommendation to be sent as email attachments to chemadministration@ncsu.edu. Reviewing of applicant materials will begin October 15, 2019 and the search will remain open until the positions are filled.
NC State University is an equal opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, national origin, religion, sex, age, veteran status, or disability. In addition, NC State University welcomes all persons without regard to sexual orientation or genetic information.

If you have general questions about the application process, you may contact Human Resources at (919) 515-2135 or workatncstate@ncsu.edu. Individuals with disabilities requiring disability-related accommodations in the application and interview process, please call (919) 515-3148. We welcome the opportunity to work with candidates to identify suitable employment opportunities for spouses or partners.

**Louisiana State University and Agricultural and Mechanical College** is the premier flagship university for the state of Louisiana, committed to the employment of faculty who are excellent teacher-scholars, nationally competitive in research and creative activities, and who contribute to a world-class knowledge base that is transferable to educational, professional, cultural, and economic enterprises. The scenic campus is located in Baton Rouge, LA.

The Department of Chemistry has 34 tenure-track faculty, complemented by 10 instructors and 22 staff. Research is supported by a range of state and federal agencies and recent faculty successes include a DOE Early Investigator, a Beckman Young Investigator and two NSF CAREER awards. Research facilities are housed in Choppin Hall and the 2012 Chemistry & Materials Building. Our graduate program currently hosts a diverse group of 140 PhD students.

For more information, visit our homepage: [https://www.lsu.edu/science/chemistry/](https://www.lsu.edu/science/chemistry/)
Assistant Professor – Organic Chemistry Position #R00039692

Qualifications: PhD in Chemistry or related field.
Specific Experience: Demonstrated excellence in research, teaching, service and leadership and strong experience in organic chemistry, broadly defined. Preference may be given to those with interests in organic materials or biologically/medicinally related applications of organic chemistry

Application Process: Applications should consist of a cover letter, curriculum vitae, proposed research and teaching philosophy, preferably in that order, as a single pdf document. Copies of transcripts may be attached to the application; original transcripts will be required prior to an appointment. Applicants should arrange to have a minimum of three letters of recommendation e-mailed directly to Amy Commander (acom@lsu.edu). Please use the following subject line: LSU Chemistry Organic Faculty Search. Review of applications will begin October 30th, 2019 and will continue until the position is filled. Applications must be submitted online: [https://lsu.wd1.myworkdayjobs.com/en-US/LSU/job/LSU---Baton-Rouge/Assistant-Professor_R00039692](https://lsu.wd1.myworkdayjobs.com/en-US/LSU/job/LSU---Baton-Rouge/Assistant-Professor_R00039692)

LSU is committed to diversity and is an equal opportunity / equal access employer.

**The Department of Chemistry at University of North Texas** invites applications for a tenure-track faculty position in Organic Chemistry. The position will have a joint appointment in the BioDiscovery Institute ([http://bdi.unt.edu](http://bdi.unt.edu)), an interdisciplinary Institute of Research Excellence at UNT focused on fundamental research in biobased products and materials. An appointment at the Assistant Professor level is expected; however, candidates at higher ranks may be considered. The expected start date is August 2020.
We are seeking an individual working in the general area of synthetic chemistry of biologically relevant organic compounds. Candidates should have expertise in synthetic organic chemistry, and preferably experience with lipids, natural products, or other biomolecules. Interest or experience in combining synthetic studies with biochemical or genetic approaches to deciphering biosynthetic pathways in plants, fungi or microorganisms is preferred. Candidates with research interests that address important fundamental and applied questions in the synthesis and development of bio-based products for agriculture, materials engineering, bioenergy or health-related chemistry are especially encouraged to apply. Dedicated, newly-renovated research space and state-of-the-art core facilities in genomics and analytical chemistry/biochemistry will be available to the new faculty member as part of the joint appointment in BDI. The new faculty member will also have opportunities to interface with and contribute to a growing emphasis on chemical biology within the UNT Chemistry Department.

The University of North Texas (UNT) is a Carnegie R1 research university with a diverse population of over 39,000 students. UNT is located in Denton, a cultural hot spot on the northern edge of the Dallas-Fort Worth Metroplex, one of the fastest growing metropolitan areas in the country. The UNT Chemistry Department is entering a growth phase, with plans to hire an endowed Welch Chair in Chemistry and up to 10 additional tenure-track faculty over the next five years. Our department has a strong culture of interdisciplinary collaboration, with specific strengths in computational chemistry, photochemistry, and materials chemistry.

Applicants should submit materials by visiting http://facultyjobs.unt.edu and searching for positions in the Chemistry Department, or by following this link. A cover letter, curriculum vitae, a statement of research interests, and a statement of teaching philosophy are requested. Letters of recommendation will be solicited on the applicant’s behalf. Evaluation of applications will begin on November 1, 2019 and will continue until the position has been filled.

For more information, please visit the following: Human Resources http://facultyjobs.unt.edu; College of Science https://cos.unt.edu/; Department of Chemistry https://chemistry.unt.edu/.

Louisiana State University, Assistant Professor – Organic Chemistry

The Department of Chemistry, housed within LSU’s College of Science, has a tenure-track faculty position available in organic chemistry.

Duties:

- 50% Teach undergraduate and/or graduate-level courses in chemistry; direct/supervise graduate and undergraduate students; participate in University service, including committee activities, supervision of teaching/research assistants and student advising, Maintain professional standards and level of competence.
- 50% Maintain a strong, well-funded, widely recognized research program publish results in appropriate journals or other media.

Qualifications: PhD in Chemistry or related field

Specific Experience: Demonstrated excellence in research, teaching, service and leadership and strong experience in organic chemistry, broadly defined. Preference may be given to those with interests in organic materials or biologically/medicinally related applications or organic chemistry.

Application Process: Applications should consist of a cover letter, curriculum vitae, proposed research and teaching philosophy, preferably in that order, as a single pdf document. Copies of transcripts may be attached to the application; original transcripts will be required prior to an appointment. Applicants should arrange to have a minimum of three letters of recommendation e-mailed directly to Amy Commander (acom@lsu.edu). Please use the following subject line: LSU Chemistry Organic Faculty Search. Review of applications will begin October 30th, 2019 and will continue until the position is filled.
The University of Texas at El Paso (UTEP) is seeking an innovative leader to serve as Chair of the Department of Chemistry and Biochemistry. Research activities in the Department encompass all major areas of chemistry and biochemistry, and faculty receive extramural funding from federal and state programs, private foundations and industry. The successful candidate is expected to be an active leader and researcher with a strong vision for developing and strengthening educational and research initiatives. Applicants must have a distinguished scientific record, demonstrated leadership skills, and a commitment to the education and mentorship of students and faculty. Candidates should have relevant administrative experience and an understanding of issues affecting faculty recruitment, promotion, and retention. The Department is especially interested in candidates who will contribute to the diversity and excellence of the academic community. For more information about the Department, please visit: www.utep.edu/science/chemistry.

Requirements:
- PhD in Chemistry or Biochemistry
- Demonstrated leadership skills
- Excellent management skills
- Distinguished record of research and teaching
- Current academic rank of tenured associate or full professor (or equivalent non-US rank)

Additional Information:
Hiring decisions are subject to final budget approval.
In keeping with its Access and Excellence mission, The University of Texas at El Paso is committed to an open, diverse, and inclusive learning and working environment that honors the talents, respects the differences, and nurtures the growth and development of all.

The University of Texas at El Paso is an Equal Opportunity/Affirmative Action employer. The University does not discriminate on the basis of race, color, national origin, sex, religion, age, disability, genetic information, veteran status, sexual orientation or gender identity in employment or the provision of services.

For accommodation information for employees and applicants with disabilities, please contact UTEP's Equal Opportunity Office at eoaa@utep.edu.

Application Instructions:
Applicants should submit a curriculum vitae, contact information for 5 references, and a letter of interest addressing research, education, administrative, and leadership goals.
Review of applications will begin October 21, 2019, and will continue until the position is filled.
Questions about this position should be directed to Search Committee Chair, Dr. Michael Kenney at mjkenney@utep.edu.

The Department of Chemistry & Biochemistry at Eastern Illinois University invites applications for a one-semester position: Instructor of Analytical Chemistry. Duties begin in January, 2020. A Ph.D. or substantial graduate work in chemistry or a closely related field is preferred. Teaching duties will include an undergraduate course in analytical chemistry, as well as general chemistry/general education courses. Applicants should email a cover letter and current CV to Dr. Robert Chesnut at rwchesnut@eiu.edu. Applicants should include the names of three references.
Application review begins October 30, 2019 and will continue until the position is filled. Direct inquiries to Dr. Robert Chesnut at rwchesnut@eiu.edu.

*Eastern Illinois University is an Affirmative Action/Equal Opportunity Employer - minority/female/disability/veteran - committed to achieving a diverse community.*

**Appalachian State University, Department of Chemistry and Fermentation Sciences** is accepting applications for the following positions:

- Lecturer in Analytical / Forensic Chemistry (start 01/2020): https://appstate.peopleadmin.com/postings/23646
- Assistant Professor in Chemical Education Research (start 08/2020): https://appstate.peopleadmin.com/postings/23627
- Assistant Professor in Inorganic Chemistry (start 08/2020): https://appstate.peopleadmin.com/postings/23658

The A. R. Smith Department of Chemistry and Fermentation Sciences offers a Bachelor of Science in Chemistry with eight different concentrations, including the American Chemical Society (ACS) Certified degree, Marketing and Business, Biochemistry, Environmental, Fermentation Sciences, Forensic Science, Individually Designed and Chemistry Secondary Education Licensure; a BA degree in Chemistry is also offered. The Department also offers a Bachelor of Science degree in Fermentation Sciences, which includes a background in chemistry and biology as well as business, marketing and entrepreneurial principles. The department has 20 tenure-track faculty members, 287 undergraduate chemistry majors and 66 undergraduate fermentation sciences majors. Many of the chemistry and fermentation sciences majors conduct research and disseminate their results at national, regional and local professional meetings and in peer-reviewed publications.

Appalachian State University, in North Carolina’s Blue Ridge Mountains, prepares students to lead purposeful lives as global citizens who understand and engage their responsibilities in creating a sustainable future for all. The transformational Appalachian experience promotes a spirit of inclusion that brings people together in inspiring ways to acquire and create knowledge, to grow holistically, to act with passion and determination, and embrace diversity and difference. As one of 17 campuses in the University of North Carolina system, Appalachian enrolls about 19,000 students, has a low student-to-faculty ratio and offers more than 150 undergraduate and graduate majors.

Throughout their teaching, research, and service duties, the successful applicant should promote diversity and inclusive excellence.

**The Department of Chemistry at the University of Houston (UH) invites applications for a tenure-track assistant professor position in experimental polymer chemistry.** The faculty member will be expected to teach undergraduate and graduate-level courses in the Department of Chemistry, including possibly introductory general chemistry or introductory organic chemistry, and to perform cutting-edge research in experimental polymer chemistry. To gain promotion to associate professor with tenure in the Department of Chemistry at UH, a faculty member is expected to garner peer-reviewed funding from a
federal agency to support his or her research, publish a substantial number of papers in high impact peer-reviewed journals from research performed at UH, and establish a national reputation for excellence in research during his or her probationary period. In addition to these criteria for research excellence, the Department expects the candidate to excel at teaching, as documented through teaching evaluations, and to serve on various Departmental, College, and University committees.

To apply, upload a cover letter, full curriculum vitae, one-page statement of teaching interests and experience, summary of research plans (five pages maximum), all as PDF documents. During the application process, the applicant will be prompted to provide the names and email addresses of three people to whom requests will be sent directly for letters of recommendation.

The University of Houston, with one of the most diverse student bodies in the nation, seeks to recruit and retain a diverse community of scholars. Additionally, the University is responsive to the needs of dual career couples.

The University of Houston is an Equal Opportunity/Affirmative Action Institute. Minorities, women, veterans, and persons with disabilities are encouraged to apply.

Qualifications

Ph.D. in chemistry, materials chemistry, or chemical physics. Postdoctoral research experience or the equivalent industrial research experience strongly preferred.

https://uhs.taleo.net/careersection/ex2_uhf/jobdetail.ftl?job=FAC001078&tz=GMT-05%3A00&tzname=America%2FChicago

The Department of Chemistry at Virginia Commonwealth University invites applications for a tenure-track, open rank position in Physical Chemistry to begin in fall 2020. Candidates are required to have an established research agenda and clear potential for extramural funding as well as potential for nationally-recognized scholarship in Physical Chemistry that complements or expands existing expertise in the Department of Chemistry. Teaching will primarily be in undergraduate and graduate courses in Physical Chemistry. Those candidates with theoretical/computational chemistry interests’ especially in biophysical chemistry and nanoscience as applied to biology and medicine are encouraged to apply.

A Ph.D. in chemistry is required and post-doctoral experience is strongly encouraged. Applicants at all levels of professor rank will be considered. Candidates at the Associate and Full Professor levels must have a well-developed research portfolio with evidence of multi-disciplinary applications and external funding. Candidates need to submit (1) a cover letter, (2) a curriculum vitae, (3) a document containing detailed research proposals, teaching plans and an estimate of start-up costs to https://www.vcujobs.com/. In addition, names of three references must be entered into VCUjobs.com; these individuals will be asked to provide recommendation letters. Review of applications will begin immediately and continue until the positions are filled. Please contact Sally Hunnicutt, Search Committee Chair, sshunnic@vcu.edu for any questions about the position.

Virginia Commonwealth University enrolls about 32,000 students, including nearly 8,500 ethnic minorities. The University seeks to attract an active, culturally diverse faculty of the highest caliber. The Chemistry Department of Virginia Commonwealth University is committed to the dual mission of teaching and research at the bachelor, master and doctoral levels. In teaching, the purpose is to provide high quality education in chemistry to undergraduate as well as graduate students, in preparation for professional careers at all levels. In research, the goals are to advance the science of chemistry, to keep faculty on the forefront of the field, and to maintain an educational program consistent with the latest
technology and development of the discipline. Service to the chemical profession is also an important aspect of the department’s activities.

Virginia Commonwealth University is an equal opportunity, Affirmative Action University providing access to education and employment without regard to race, color, religion, national origin, age, sex, political affiliation, veteran status, genetic information, sexual orientation, gender identity, gender expression, or disability.

Stanford ChEM-H is an independent institute at Stanford University, formed in partnership with the Schools of Medicine, Humanities and Sciences, and Engineering. More information about the institute can be found on https://chemh.stanford.edu/. The Institute is seeking applicants for a tenure-track faculty position at the junior level (Assistant or untenured Associate Professor). Applicants are expected to have earned a Ph.D. or M.D. degree in any discipline of science, engineering or medicine.

We will consider applicants knowledgeable in any frontier area of research at the interface between chemistry, biology, engineering, and medicine. In general, we give higher priority to the overall originality and promise of the candidate’s work than to the sub-area of specialization.

The successful candidate will have his/her primary appointment in a department within the School of Engineering, Humanities and Sciences, or Medicine. He/she will be expected to teach and perform clinical service (if relevant) within this department in a manner that is consistent with standard practices for tenure-track faculty within that department. The candidate will also be expected to develop a world-class research program in molecular scale science. Applicants should be seeking a stimulating interdisciplinary environment in which to pursue teaching and research. We anticipate that the faculty member will develop interactions with faculty not only in his/her home department but also in other departments and Schools at Stanford and at the SLAC National Accelerator Laboratory.

Applications should be addressed to Professor Carolyn Bertozzi, Search Committee Chair, and include a curriculum vitae (including research accomplishments, teaching experience, and publications), a description of future research plans, a teaching statement, and at least three letters of reference. All materials should be submitted online at https://academicjobsonline.org/ajo/jobs/14296. To ensure full consideration, applications should be submitted by October 21, 2019. Questions should be addressed to Professor Bertozzi at chemh_info@stanford.edu.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University’s research, teaching and clinical missions.

Apply Now
For more information on recent ChEM-H faculty hires, please visit our Faculty Recruitment page.

The Chemical Engineering Department in the College of Engineering at the University of California, Santa Barbara is seeking applications as part of an external search for two tenure-track Assistant Professor positions with a start date of July 1, 2020 or later. At a minimum, applicants must have completed all requirements for a PhD (or equivalent) except the dissertation at the time of application. Applicants must have a PhD degree or equivalent in chemical engineering or a related field by time of appointment as Assistant Professor.

Application packages should include a completed CV, contact information for 3-5 references, and a cover letter (limited to 2 pages) containing the following four elements: (1) most significant research
accomplishment as a graduate student; (2) most significant research accomplishment as a postdoc (if applicable); (3) overall goals/vision for a research program at our institution; and (4) experience and qualifications that make you particularly well-suited to achieve those goals. A Statement of Research and a Statement of Teaching must also be submitted. Please submit all application materials via UC Recruit at: https://recruit.ap.ucsb.edu/JPF01504

The department is especially interested in candidates who can contribute to the diversity and excellence of the academic community through research, teaching and service. We strongly encourage applicants to submit an optional Statement of Contributions to Diversity. These statements, if submitted, will be reviewed for evidence of teaching, research, professional and/or public service contributions that promote diversity and equal opportunity, such as effective strategies used for the educational advancement of students in various under-represented groups; demonstrated contributions to the advancement of equitable access and diversity in education; and contributions furthering diversity and equal opportunity in higher education through participation in such activities as recruitment, retention, and mentoring of scholars and students.

Applicants are encouraged to submit their applications by the primary consideration date of November 1, 2019 or until the positions are filled. Questions regarding these positions should be directed to the department at: che-jr-facrecruitment2019@chemengr.ucsb.edu

The University of California is an Equal Opportunity/Affirmative Action Employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.

**Marquette University – Department of Chemistry** A Postdoctoral Fellow position is available in the experimental physical chemistry group of Dr. Ofer Kedem. The group focuses on functional nanomaterials, and particularly nanoscale chemical communication, transport, and reaction control. Please visit the group’s website at www.kedemlab.com for more details. The Postdoctoral Fellow will primarily focus on developing chemical signaling circuits based on patterned monolayers.

This is a 12-month position expected to start in January 2020 (with some flexibility), and may be renewed for an additional 12 months based on mutual agreement between the PI and the Postdoctoral Fellow.

Applications will be reviewed as they are received, and the position will remain open until an appropriate candidate has been found.

**Duties and Responsibilities**

Carry out experimental research in designing, synthesizing and characterizing functional monolayers with dynamic responses. Conduct research with high degree of autonomy, supervising and guiding graduate and undergraduate students. Analyze results, collaboratively author journal manuscripts and reports, and propose new research directions, as appropriate.

**Required Knowledge, Skills and Abilities**

- Earned doctorate (or its foreign equivalent) or appropriate terminal degree.
- Preferred Knowledge, Skills and Abilities
  - Of particular interest are candidates with experience in any of the following: (i) nanomaterial synthesis, characterization and functionalization; (ii) organic ligand synthesis; (iii) synthesis and operation of molecular switches; (iv) monolayer deposition; (v) fluorescence microscopy; (vi) programming in MATLAB, Python or similar; and (vii) modeling of reaction-diffusion systems, molecular dynamics simulations, or finite element simulations.

[https://employment.marquette.edu/postings/12309](https://employment.marquette.edu/postings/12309)
The Department of Chemistry and Biochemistry at Auburn University invites applications for a tenure-track, nine-month position at the Assistant Professor rank. Auburn University is an institution that is both highly research-active and committed to maintaining teaching excellence as one of the nation’s premier land, sea, and space grant institutions. With this position, the department is looking to fill research needs in inorganic/organometallic chemistry; candidates who can augment the department’s research initiatives in chemical biology are particularly encouraged to apply. The successful candidate is expected to develop a vigorous, externally funded research program. In addition, the successful candidate must demonstrate a commitment to promoting a diverse and inclusive scholarly environment in teaching, research, mentoring, and service. Duties also include teaching at both the undergraduate and graduate levels.

For more information about the College of Sciences and Mathematics and the Department of Chemistry and Biochemistry, please refer to our website: [http://www.auburn.edu/chemistry](http://www.auburn.edu/chemistry).

**Minimum Qualifications**

Minimum qualifications include excellent written and interpersonal communication skills. In addition, a Ph.D. in chemistry, biochemistry, or a closely related field and at least one year of postdoctoral experience are required at the time employment begins. The selected candidate must also meet eligibility requirements to work in the U.S. on the date of appointment (August 2020) and must be able to continue working legally for the proposed term of employment.

All applicants should submit a cover letter, curriculum vitae, a detailed statement of research plans and a two-page statement of teaching philosophy which highlights a commitment to diversity and inclusion in higher education. The applicant will also need to provide the names and contact information of three professional references.

Review of applications will begin October 31, 2019 and continue until the position is filled. [https://aufacultypositions.peopleadmin.com/postings/3805](https://aufacultypositions.peopleadmin.com/postings/3805)
