Opportunities
Apply to teach your own course at the Cook County Jail
Advanced graduate students and postdoctoral fellows can apply to teach a mini-course at the Cook County Jail. Courses run for 4 to 6 weeks, and can be in any discipline. Deadline for applying to teach a Spring quarter course is TODAY, February 14, 2020. For more information on eligibility and application process, click here.

Fellowship Opportunity

Dean’s Postdoctoral Fellowship at Harvard Medical School is a two-year research fellowship established to nurture, advance, and retain a diverse scientific workforce that will continue to contribute to diversity through their ongoing academic and research scholarship. The fellowship program prepares scientists from groups historically underrepresented in the basic and social sciences for careers in academia and other sectors. Fellows benefit from a highly innovative and creative research environment that emphasizes scientific rigor, collaboration, and the pursuit of excellence in science.

BENEFITS
The two-year fellowship provides funding in the amount of $50,000/year, and DPF fellows are eligible for Harvard’s generous benefits package. They receive additional opportunities for career enhancement, mentorship, seminars, workshops, and conferences, along with a robust support network, through the Harvard Medical School Scholars in Translational and Academic Research (HMS STARs) program.

Job Listings (From Previous Weekly Bulletins)

- **Visiting Assistant Professor of Chemistry Opening at Lawrence University.** Apply by February 21.
- **Medicinal Chemist at Emory University, Biological Discoveries through Chemical Innovations Initiative**
- **Adjunct Instructor of Physical Chemistry at Dominican University**

Opportunities for Graduate Students and Postdocs to Meet with Colloquium Speakers
February 26th: Professor Emeritus Marvin Miller of University of Notre Dame (Email Linda Hickey to sign-up).
March 11th: Professor Ivan Aprahamian of Dartmouth College (Email Linda Hickey to sign-up).
Internship Opportunity: Hardware Device Engineer at Amazon Lab-126

Amazon Lab-126 offers a hardware development engineer position to perform test processes for newly developed materials. Experience with metallurgy, electrochemistry, and corrosion resistant materials is preferred but not required. If interested, contact Yuyan Hua (yuyanhua@amazon.com).

Basic requirements:
- Working towards Bachelor’s or Master's degree in Materials Science, Chemical or Mechanical Engineering or a related field
- Ability to design and debug electrochemical test equipment.
- 0 – 1 + years of practical lab experience
- Ability to collect, analyze, and present informative experimental data
- Basic understanding of statistical process design and reliability engineering
